Subject: **Miles Teach, Administrative Relief Request**

Background on Subject Property:

The subject property is zoned Improved Subdivision (IS) and is located in the Harris Ocean Park Estates Subdivision, Lot 29, Block 2, Key Largo, Real Estate Number #00447430.000000. The applicant purchased the property in January of 2001. The sale price is listed in the assessor's records as \$16,000.00. The current land value is listed in the assessor's records as \$10,050.00. The applicant entered the Residential Rate of Growth Ordinance (ROGO) system on October 15, 2001, (Year 10, Quarter 2). Permit #01-3-2345.

Permitting History:

A building permit and ROGO allocation were applied for on October 15, 2001, (Year 10, Quarter 2). The application scored thirteen (13) points; ten (10) points from planning, five (5) points from the building department with six (6) points for building features and minus one (-1) point for construction in an AE-8 flood zone. The building permit application did not include a cistern or reverse osmosis system, and therefore the maximum building points could not be assigned. In addition the application received minus two (-2) points from environmental resources as the subject property was determined to be low quality hammock (Habitat Protection Group 2) by the Upper Keys Biologist.

Currently, with the addition of three perseverance points, the property scores sixteen (16) points. The applicant will be awarded one more perseverance point at the end of the 2nd quarter of Year 15, January 13, 2006 for a total of twenty-one (21) points.

The property is located on Atlantic Avenue and is surrounded by vacant lots. There are three (3) vacant lots to the west, five (5) to the east, four (4) to the south across Atlantic Avenue and four (4) more vacant lots to the north at the rear of the property. Each lot is 5000 Sq. Ft., making a total of 80,000 Sq. Ft. of contiguous undeveloped hammock (approximately 1.7 acres) surrounding the property. The rest of the Harris Ocean Park Subdivision is less than fifty (50) percent developed.

There have been five (5) ROGO allocations granted in this subdivision, and another eight (8) are currently in the system awaiting an allocation. A list of permits allocated and issued, along with the ROGO allocation year is attached as Appendix A.

The applicant applied for Administrative Relief on November 24, 2004, (Year 14, Quarter 2) and is within the allowable time frame to be eligible for Administrative Relief under section 9.5-122.2(f) of the Monroe County Code.

Development Potential:

Zoning – The property is zoned Improved Subdivision (IS) allows single-family residential dwellings and accessory uses. As an IS lot, it has no TDR value under the current code.

Future Land Use Map (FLUM) – The FLUM indicates the property to be Residential Medium (RM) which is intended for single-family residential use.

Land Type - The subject property was determined to be low quality hammock by the Upper Keys Biologist. The property was given a point assignment of negative two (-2) for being in Habitat Group 2 which is defined in Section 9.5-122.3(7) and includes the following: High hammock (low quality); Low hammock (low quality); Scarified land with saltmarsh and buttonwood; and scarified land with beach berm (design/standards). This is the second least environmentally sensitive category of the four described in Section 9.5-122.3(7).

ROGO- The ROGO point system is designed to direct growth to protect natural resources and to encourage infill development of improved subdivision lots. In response to Objectives 101.5 of the Monroe County 2010 Comprehensive Plan which directs the County to protect natural resources, Land Development Regulations (LDRs) have been adopted that score minus ROGO points in environmentally sensitive lands. The subject lot received two (-2) negative points under Section 9.5-122.3 of the Land Development Regulations, and is not identified as being in the Conservation and Natural Areas (CNA).

Eligibility for Administrative Relief Options:

Section 9.5-122.2(f) of the Monroe County Land Development Regulations and Policy 101.6.1 or the 2010 Comprehensive Plan provides a mechanism whereby an application which has not received an allocation award in ROGO may apply to the Board of county Commissioners for Administrative Relief. The applicant is eligible for Administrative Relief having complied with all requirements of the dwelling unit allocation system and having been considered in at least three (3) of the last four consecutive annual allocation periods and having submitted their application for Administrative Relief no earlier than the third annual allocation period and no later than ninety (90) days following the close of the fourth allocation period.

Relief Options under Administrative Relief:

The remedies available to an application for Administrative Relief pursuant to Section 9.5-122.2(f) include issuance of an allocation award or just compensation by purchase of the property or such other relief as may be necessary or appropriate.

Although the subject property does not contain any significant habitat for endangered or threatened animal species, it does contain sensitive environmental features. Therefore the subject property does

meet the guidelines established under Policy 101.6.6 and Policy 102.4.2 of the Year 2010 Comprehensive Plan for the purchase of property under Administrative Relief.

The applicant has indicated that he does not wish to sell the property to the County as provided for under Policy 101.6.1 of the Year 2010 Comprehensive Plan.

Staff Analysis:

The Growth Management Division has reviewed the application and determined it is not appropriate to offer an allocation award to this applicant. The property contains environmentally sensitive lands, received two negative points (-2) in ROGO and is located within a subdivision with other lots containing fragmented and contiguous hammock. Furthermore, the land is contained within a hammock patch of one acre or greater in area, which would be within a proposed Special Protection Area.

The appropriate County action for this property is to offer to purchase the property from the lot owner. If the owner chooses not to sell to the County, the application may remain in the ROGO system and accrue two points (+2) for each year over four years that he continues in ROGO. The granting of an allocation award is not the preferred relief option and is not consistent with the policies for Administrative Relief under the Year 2010 Comprehensive Plan.

Recommendation:

It is recommended that the Board of County Commissioners find that the applicant has met the criteria and qualifies for Administrative Relief, and that the form of this relief is an offer to purchase the lot for fair market value by Monroe County.
